

Francisco Javier Castilleja Quintanilla

Computer Systems Engineer

Tamaulipas, México | (868)-158-1653 | Francisco.Castilleja@outlook.com | Web Portfolio

Profiles

Francisco Javier Castilleja Quintanilla FranciscoCastilleja

Summary

I specialize in **front-end development** and have an active interest in expanding my skills towards **back-end development** with the goal of becoming a **full-stack developer**. My dedication to staying updated with the latest trends and technologies demonstrates my willingness to take on new challenges and contribute to the success of multidisciplinary projects.

Projects

MarvelKnight December 2022 - Present

https://marvelknight.vercel.app/

Project developed independently to inform fans about the Marvel Multiverse.

This new version features new functions and error handling.

Various technologies were used, including HTML, CSS, Tailwind CSS, TypeScript, Next.js, React.js, Supabase, and Vercel.

Star Wars Chronology April 2024 - Present

https://starwars-chronology.vercel.app/

Star Wars Chronology provides a comprehensive and accurate guide to explore the Star Wars saga in chronological order.

Users can sign in with Google to engage in discussions and share information, thus helping to maintain the accuracy of the chronology.

The project was developed using modern technologies such as HTML, CSS, Tailwind CSS, TypeScript, Next.js, React.js, Supabase, and Vercel.

Education

Universidad Autónoma de Tamaulipas August 2019 - December 2023

Computer Systems Engineering

Engineering

9.0

https://www.uat.edu.mx/

During my time at the Universidad Autónoma de Tamaulipas, I specialized in Computer Systems Engineering, achieving an average grade of 9.0. Currently, I am an intern and working on my thesis to obtain my university degree.
